Education

- 2011–2014 **Statistics**, *Florida State University*, Tallahassee, FL, *Ph.D.*.
Thesis Title: Functional Component Analysis and Regression Using Elastic Methods
- 2007–2009 **Electrical Engineering**, *Colorado State University*, Fort Collins, CO, *M.S.*.
Thesis Title: Coherence-based Underwater Target Detection for Side-Scan Sonar Imagery
- 2004–2007 **Electrical Engineering**, *Colorado State University*, Fort Collins, CO, *B.S.*.
Minor: Mathematics Cum Laude

Ph.D. Thesis

- title *Functional Component Analysis and Regression Using Elastic Methods*
- supervisors Dr. Anuj Srivastava and Dr. Wei Wu
- description Constructing generative models for functional observations is an important task in statistical function analysis. In general, functional data contains both phase (or x or horizontal) and amplitude (or y or vertical) variability. Traditional methods often ignore the phase variability and focus solely on the amplitude variation. Ignoring phase variability leads to a loss of structure in the data, and inefficiency in data models. This dissertation presents three approaches that include phase variability. The first relies on separating the phase (x -axis) and amplitude (y -axis), then modeling these components using joint distributions. The second combines the phase-variability into the objective function for two component analysis methods and the third approach combines the phase-variability into the functional linear regression model.

Experience

2014–Present **Principal Member of the Technical Staff**, *Sandia National Laboratories*, Albuquerque, NM.

Research in pattern theoretic approaches to problems in image analysis, computer vision, signal processing, and functional data analysis

Detailed achievements:

- PI on Fellow Directed LDRD project in spatio-temporal correlation of points.
- Development of algorithms for the registration of remote sensor imagery which provide uncertainty.
- Development of algorithms for functional statistical process control.
- Development of methods for statistical analysis of doppler signatures;
- Team lead on multiple teams in sensor exploitation and long haul communications.

2009–2014 **Research Engineer**, *Naval Surface Warfare Center*, Panama City, FL.

Sonar analysis and automatic target recognition development.

Detailed achievements:

- Development of signal processing algorithms for sonar image based target detection and classification.
- Transition of developed theoretical methods to testing and eventual use in Navy systems.
- Development of methods of alignment and statistical analysis of sonar signals using a new metric.
- Team lead in automatic target recognition algorithm development.

2007–2009 **Research Engineer**, *Information System Technologies, INC*, Fort Collins , CO.

Automatic target recognition development.

Detailed achievements:

- Development of signal processing algorithms for the detection of transient signals using sensor networks.
- Developed HMM-based transient detection algorithm for sniper detection and localization.
- Programming and development of on-board application of signal processing algorithms on motes and specialized FPGA sensor board.

2006–2009 **Research Assistant**, *Colorado State University*, Fort Collins , CO.

Automatic target recognition development.

Detailed achievements:

- Developed detection and classification algorithms using coherence-based feature extraction method.
- Applied developed algorithms to sonar imagery for the detection of targets in underwater scenarios.
- Benchmarking and validation of satellite cloud detection and classification using MSG-SEVIRI data.

Honors and Awards

- SNL ERA Team Winner, "Venom Spider Bite" - 2017
- DNI Team Award, "IARPA SLiCE" - 2017
- SNL ERA Team Winner, "Mica Data Link" - 2016

- IEEE Journal of Oceanic Engineering Outstanding Reviewer - 2013-2014
- Top First Year Student in Computational Statistics - Fall 2011
- Tau Beta Pi - April 2006
- Eta Kappa Nu - November 2005
- CSU College of Engineering Dean's List - All Semesters Attended
- Eagle Scout Award - December 1998

Volunteer Opportunities

Chair	Jan 2018 - Present Backcountry Horseman of New Mexico, Albuquerque, NM. Chair of organizing state and chapter activities for volunteer and political action
Board Member	Jan 2016 - Present Backcountry Horseman of New Mexico - Pecos Chapter, Edgewood, NM. Help plan/lead volunteer trail maintenance projects in the Santa Fe and Cibola National Forests.
Assistant District Commissioner	April 2017 - Present Boy Scouts of America, Albuquerque, NM. Assist the Great Southwest Council Sandia District in administration of BSA programs across multiple packs and troops.
Chartered Organization Representative	Jan 2016 - April 2017 Boy Scouts of America, Edgewood, NM. Advisor to a Cub Scout Pack 465 and Boy Scout Troop/Team/Crew 465, involves the mentoring of youth and leaders in a successful program.
Venture Scout Crew Advisor	June 2006 - Jan 2016 Boy Scouts of America, Fort Collins, CO & Chipley, FL. Advisor to a high adventure boy scout crew, involves planning of trips, guiding, and mentoring.
Vice President	Fall 2006 - 2007 Tau Beta Pi, Colorado Delta Chapter, Fort Collins, CO. Supervised Initiation Ceremony of New Members.
Advisor	May 2008 - May 2009 Tau Beta Pi, Colorado Delta Chapter, Fort Collins, CO. Provide assistance and guidance to current student officers of chapter.
Missionary	July 2002 - July 2004 Fort Worth Texas, The Church of Jesus Christ of Latter-day Saints

Professional Memberships

- ASA - Sep. 2011 - Present
- IEEE - Sep. 2004 - Present
- Eta Kappa Nu - Nov. 2005 - Present
- Tau Beta Pi - April 2006 - Present

Invited Talks

- “Elastic Functional Data Analysis”, UNM Statistical Colloquium, February 15, 2018 (Organizer: Li Li)
- “Event Correlation using Spatio-Temporal Point Processes”, SNL DSRC Colloquium, September 29, 2016 (Organizer: K. Simonson)
- “Doppler Multi-INT Detection and Tracking”, NSWC-PCD Invited Lecture, October 1, 2015 (Organizer: J. T. Cobb)
- “Statistical Analysis and Modeling of Elastic Functions”, Department of Mathematical and Statistical Sciences, University of Alberta, Aug 23, 2011. (Organizer: Yau Shu Wong)
- “Alignment and Analysis of Proteomics Data using Square Root Slope Function Framework”, CTW: Statistics of Time Warpings and Phase Variations 2012, OSU MBI, Nov 7, 2012

Contracts and Grants

- 04/16-9/18 - Event Correlation using Spatio-Temporal Point Processes - \$755,000 (PI), SNL Fellow Directed LDRD
- 10/16-9/18 - Doppler Assited Sensor Fusion - \$875,000, (Co-PI with R. M. Naething), OGA
- 09/08-09/11 - Coherence-based Target Detection for Multi-Platform Sonar Imagery - \$200,000 (Co-PI with M. R. Azimi), Office of Naval Research Code 32
- 09/10-09/12 - In-Situ Learning For CAD/CAC Sonar Imagery - \$200,000 (Co-PI with M. R. Azimi and N. Wachowski), Office of Naval Research Code 32

Computer skills

Programming Languages	Julia, Python, R, MATLAB, Mathcad, C, C++, Mathematica, Java, HTML, Lab-view
Assembly Languages	68HC12
Operating Systems	Linux, Mac OS, Windows
Software	Autocad, P-Spice, Logic Works, Adobe Suite, Microsoft Office, Agilent VEE, Macromedia Suite, P-CAD, Inventor
Certifications	Security+, Linux+
